

## We keep your business flowing

It's our mission to make sure you experience uninterrupted uptime, so that your customers are never let down.

With our expertise in print, storage, healthcare and a wide range of other sectors and technologies, we'll design a solution that delivers:

### Zero downtime

Keep your business flowing

### Security

Protect against disruption

### High performance

Power your business growth

## Enterprise 25G

Future proof your network. The Enterprise 25G is the popular choice of high performance and exceptional price that caters for both current and growing networks. A fully-featured load balancer, it is backwards compatible with 10GbE.

The Enterprise 25G is certified for a range of demanding applications, delivers full scalability, and includes built-in web application firewall and global server load balancing as standard.

### Exceptional service

We make it our business to understand yours, inside and out. We'll design a solution tailored to your specific environment and requirements. And we'll be there every step of the way, to make sure your data keeps flowing - so your business can too.

### Not just great support – the best

We offer industry-leading, five-star support for all of our products. But don't just take our word for it – read what our customers have to say on Gartner and Reviews.io.

#### Schedule your demo

Much more than a guided tour. Explore the product with us on-screen, with our solutions architect on-hand to discuss your requirements.

## High performance, cost-effective

- High availability
- Zero downtime
- Unlimited scalability
- Unrestricted SSL transactions

## Effortless and consistent

- Simple to deploy and manage
- Hassle-free deployment
- Industry-leading support
- Import the config from your free trial
- Same interface across all platforms
- Three years hardware warranty

## Secure, resilient and intelligent

- Seamless failover
- Server health monitoring
- Customizable health checks
- Intelligent real-time traffic distribution
- Session persistence
- Built-in WAF and GSLB as standard

## We do things differently

Customer-led development - we listen to customers and add features they require.

No end-of-life date - we don't end-of-life our products – all legacy versions are supported.

Quick, local response - get an expert engineer looking at your case within 22 mins.

Free migration - migrate from hardware to virtual or cloud environment (or virtual to cloud), when you want, at no added cost.

## Enterprise 25G technical specifications

### Standard features

- Server Load Balancing (SLB) for any TCP or UDP based protocol
- SSL Acceleration/Offload
- Layer 7 Content Switching
- Reverse proxy
- High performance Direct Routing (N-Path/DSR), TUN, NAT and SNAT
- Schedulers: Round Robin, Least Connection, Weighted Least Connection, Weighted Round Robin
- Dynamic Schedulers: Windows and Linux feedback agents, Custom HTTP feedback option
- Load balance almost ANY protocol i.e. HTTP, HTTPS, SMTP, POP3, IMAP, Terminal Server, etc.
- Configurable S-NAT support
- Link aggregation (802.3ad)
- VLAN Tagging (802.1Q)
- WAF & GSLB

### Hardware platform

- 2 x 10/100/1000Mbps Auto-negotiation Ethernet ports
- Standard option: 2 x 1GbE + 2 x SFP28
- Fully backward compatible with 10GbE
- 16Gb DDR RAM
- Hexa Core Intel Xeon
- Local console access via VGA, USB, Serial
- Remote console access via SSH
- CE/FCC Certified, UL Listed, RoHS Compliant

### Performance

- Up to 48Gbps Throughput
- SSL Acceleration/Offload up to 19,584 TPS
- 1,234,455 HTTP RPS
- 31,200,000 Concurrent sessions

### Warranty and support services

#### Hardware warranty:

- 3 Years Next Business Day On-site Engineer included as standard

#### Support options:

Full access to our Technical Support Engineers:

- 24/7 with standard support
- During business hours (8x5) with basic support
